

Specialist Literacy Teaching - Fee Schedule 2020

Initial Literacy Assessment and Report \$150

Assessments usually include:

- Reading Accuracy (in context)
- Reading Comprehension
- Single Word Reading Accuracy (without context)
- Spelling
- Phonic Knowledge
- Auditory Processing and Phonological Awareness

Fee includes the preparation of a Written Summary Report with assessment results and recommendations for specialist teaching support. Parents are then able to make an informed decision about whether to proceed with the support program.

Initial Establishment and Resource Fee \$55

This is a **once only fee** charged at the commencement of the first support program to cover all initial set-up, preparation and student resources, including:

- Student Folder / Carry Case
- Parent or Background Information
- Word Cards, Rule Cards, etc.

Specialist, one-on-one Teaching Sessions with students at my home-based office or via Zoom for remote students (plus postage costs to send program materials) \$80 per hour

This includes:

- Individualised specialist teaching with students
- Demonstration of homework tasks to consolidate and reinforce learning
- Discussions with parents or support person
- Planning and preparation for each session including personalised resources, spelling words, worksheets, games, etc.
- Loan of Reading Books and Games for home support

Specialist, one-on-one Teaching Sessions with students that require me to travel (e.g. to a student's home, school or library) \$150 per hour

This includes everything listed for sessions in my home

- The additional fee is in recognition of the extra time taken to travel which is time that is unavailable to work with other students
- This option is unlikely to be available in 2020 due to high demand on my time.

Cracking the ABC Code Workbooks \$55 - \$77

For many students, I find the **Cracking the ABC Code** program an excellent approach.

- This program is based on university research and designed to make a significant difference to a student's reading, spelling and writing skills in a short time frame. It's systematic, structured, phonics-based, and uses a range of memory strategies.
- Cost of individual student Workbooks for a 12 or 24-week program will vary depending on the program level required for each student but are usually \$55 or \$77.
- See www.crackingtheabccode.com for more information.
